Rhea Thampy

Product Designer | AI-Native Product Design, Fintech & Enterprise SaaS

rheathampy@gmail.com | (+91) 9945219592 | linkedIn | Portfolio

Professional Summary

Product Designer with 6 years of experience across fintech, enterprise SaaS, AI-powered platforms, and B2B tools. Known for bringing clarity to complex systems. Turning ambiguous briefs and data-heavy problems into experiences that are intuitive. Proven across the full design cycle: discovery and research, interaction design, high-fidelity execution, and dev-ready delivery. Has contributed to products serving millions of users across India and internationally, comfortable working in cross-functional teams as well as independently. Equally comfortable in fast-moving early-stage environments and structured product organisations.

Selected Impact

- Reduced manual onboarding setup by ~90% by redesigning complex enterprise CRM integration workflows for an AI-native internal platform.
- Increased application usage by 35% through end-to-end UX redesign of a financial services platform's core digital banking journeys.
- Improved employee onboarding outcomes and reduced onboarding queries by 80%, contributing to a 17% increase in retention, on an enterprise platform serving 50,000+ users.

Employment History

Fello

Product Designer II Feb 2026 - Jun 2026

- Owned end-to-end design (discovery through delivery) of complex enterprise CRM integration workflows for an AI-native platform, reducing manual onboarding setup by ~90% while balancing user needs with technical feasibility and compliance requirements.
- Translated technically complex, multi-system CRM integration requirements into clear, non-technical user-facing experiences across a multi-user enterprise platform.
- Built and iterated high-fidelity prototypes using Figma Make and Lovable to validate concepts rapidly with product and engineering teams.
- Partnered directly with product, engineering, and customer-facing stakeholders within agile sprint cycles to shape platform strategy and execution.

Contract based projects

Freelance Product Designer Jun 2025 - Feb 2026

- Led end-to-end UX and UI design for a luxury commerce platform across desktop and mobile, covering product discovery, filtering, and checkout experiences.
- Delivered enterprise website redesigns for UAE-based organisations, maintaining consistency with established brand and design systems.
- Conducted market research and designed interactive decision-support experiences for a residential solar technology platform.

Thence

Product Design Guide Oct 2022 - May 2025 | Bengaluru, India

- Increased application usage by 35% for a UAE-based financial services platform by leading end-to-end UX redesign across core digital banking journeys on web and mobile.
- Contributed to investment and financial products impacting 10M+ users, designing data-heavy banking experiences including trading dashboards, portfolio management, P&L, and transaction flows across Android and web.
- Improved platform scalability by building and maintaining design systems and reusable UI component libraries across a B2B fintech platform serving 50,000+ users.
- Improved employee retention by 17% and reduced onboarding queries by 80% by redesigning an enterprise onboarding portal based on usability testing and evidence-based iteration.
- Mentored 5+ designers and contributed to design operations and process improvements.

User Experience Designer Apr 2022 - Oct 2022 | Bengaluru, India

- Designed a phygital user journey for 200,000+ farmers across 40+ countries, leading user and market research for a farm tech company and translating complex field insights into scalable digital and physical touch points.
- Enabled small business owners across India to build online stores by revamping the UX of a B2B e-commerce platform, simplifying complex merchant onboarding flows.

User Interface Designer Apr 2021 - Apr 2022 | Bengaluru, India

- Led conceptualisation and visual design for a sports and fitness brand renowned around the world as one of the winning teams in the Indian Premier League.
- Collaborated with product managers to create concepts for a Typography and font repository, designing an app and working on UI updates for their internal tools.

Newbee Works

Design Associate Apr 2020 - Apr 2021 | Mumbai, India

- Developed user flows, wireframes, prototypes, and production-ready interfaces for web applications.
- Collaborated closely with engineering teams to ensure high-quality implementation.

Education

Master's in Design (Industrial Design)

Florence Design Academy | Florence, Italy | 2019

Bachelor's in Design (Industrial Arts and Design Practices)

Srishti InstituTe of Art, Design and Technology | Bengaluru, India | 2014 - 2018

Skills and tools

Core Competencies

- AI-Assisted Product Design
- Enterprise Product Design and Strategy
- User Research & Testing
- Prototyping & UI Design
- Design Systems & Component Libraries
- Cross-functional Stakeholder Collaboration
- Dev-Ready Specs & Handoffs
- User Flows, Wireframes & Mockups

Tools and Technologies

- **Design Tools:** Figma, Figma Make, Framer, ChatGPT, Claude Design, Lovable
- **Collaboration:** Jira, Confluence, Miro

Recognitions

The Good Samaritan Award

Thence • Sept 2021

Rising Star Award

Thence • June 2021
